

Please pardon the unsightliness of work in progress at the Midway entrance.

Last week Bobby Barbosa (Granbury) volunteered to install new lighting for our fountain. We left the sprinkler and lighting conduit exposed so that it could be seen and worked around by the crew doing soil removal, reconditioning and new planting. Bobby, thank you for donating your time, expertise and some of the materials.

On Monday, March 14, the fountain is scheduled to be leveled, cleaned, filled and placed back into operation from winterization.

Carolyn Maas and the Landscape Committee are planning to have a work crew install new landscaping for the Midway entrance on Monday, April 18. To safely perform the work, we may need to close at least one lane of Cedarview Road.

To cut costs, we are asking for volunteers on Saturday April 9 at 9:30 AM to help remove plants in advance of their work. Some of the plants will remain in case they can be reused, and others will be discarded or given to volunteers. Please call or text Wayne LeBlanc at 214 683 0402 if you have any questions.

Thank you for your patience during this process.

Wayne LeBlanc, MMVHOA President
